SEX SURVEY

Your Verdict.

As regular readers will know, this column has invited readers to express their opinions on various topics. The response has been very good, and some, besides giving their own opinion, have passed along the opinions of others in their various groups.

One of our first topics was circumcision (pros and cons)—about which replies continue to come in. However, the ratio of those favoring circumcision to those opposed to it stays about the same—2 to 1 against circumcision.

Though reasons were not requested, many of you have given reasons, and on the whole those who are against circumcision believe that it is undesirable on 'aesthetic' grounds, while a fair number say that it deadens sensitivity in the glans penis.

Here are some more things for you to think about, whether you agree with circumcision or not:

1. In many parts of the world the circumcised male is regarded as far more 'aesthetic' than the uncircumcised one, and circumcision is regarded as a mark of manliness.

2. Circumcision definitely reduces the likelihood of penile cancer—from as high as 28% in uncircumcised males to 1% or 2% in the circumcised. This has no relation to racial or hereditary factors. The presence of the prepuce (or foreskin) predisposes toward cancer.

3. In many cases circumcision is necessary before satisfactory intercourse can be attempted.

4. Sensitivity of the glans is, over a period of time, reduced by continued exposure to it. However, far more males suffer from problems related to over-sensitivity than do from under-sensitivity, and where a male appears to be impotent, that is, unable to achieve erection and orgasm, the cause is psychological in 98% of cases—so clearly, circumcision is not to be blamed for that.

5. On balance, circumcision is a good and desirable practice, which eliminates many more problems than it causes. The chief criticism of it is that to some males it symbolizes 'castration.' In these cases, it does not cause a castration complex, but provides a focal point for one. The cure is psychological.

6. For those who wish to be partially uncircumcised, an operation is possible—though very rarely performed. This gives semi-restoration of the foreskin. (Note: Fizeek does *not* know of any physician or surgeon who would be willing to perform this operation.)

So much for circumcision. A second topic, which brought a surprising mail, dealt with underwear, swim suits, etc.—tight versus loose, and the possible effect on fertility if the testicles were pouched close to the body, where they would be at a higher temperature than normal.

Most of you seem to prefer jockey type shorts on the grounds that they are neat and eliminate 'flopping around.' Several mentioned that when it came to swim wear they preferred to swim nude. This, of course, anybody but the most inhibited would prefer when circumstances permit. However, writing from a bitter personal experience, this writer would like to ask if any of you ever flubbed a dive from a high board in the nude? If you did, you would never dive again without some sort of supporter!

Now we pass to another topic, and again invite your opinions.

Penis length has for long been recognized as a source of great anxiety to many males. For many years, the medical profession has tended to brush it off, on the basis that a genuinely undersized penis is very much of a rarity.

Now we have some interesting figures for you. These are not the averages of *one* researcher, but the averages of the several. The average length of the male organ, flaccid, is 2 to 4 inches—median 3". This has very little relationship to its erect size, which averages between 4½ and 7 inches. The ideal size for sexual intercourse is 5 to 6 inches—and one man may actually vary from day to day between the two. Penises of 8 inches and longer are extremely rare (no matter what you think!) and furthermore, since the average vagina is 3½ inches, such long male organs are likely to be a distinct disadvantage in coitus.

However, we have found out that the opinion of Dr. Hirsch, that length of the organ can be increased by daily stretching, is to some extent backed up by Physiquiltist Bob Hoffman. Bob gives some extraordinary advice, namely to 'stretch, roll, knead and . . . vigorous tensing.' We cannot agree with him when he says that if exercise can increase the size of other muscles it can increase the size of the penis; nor can we agree that if the penis was larger in its flaccid state, it would be larger when erect. The penis is not a muscle and there is no reason to think it would increase in size in response to exercise. Dr. Hirsch's contention was that it could possibly be stretched to a greater length. There is a certain number of tissue cells in the penis, which cannot be increased by stretching *or exercise*. When erect, these cells are gorged by blood. A good state of general health is therefore the best guarantee of effective erections, while the maintainence of erection is a matter of nervous control—related in turn to psychological and physical condition generally.

Our earlier statements regarding what is the average size are correct to our knowledge: if you believe they may be in error, you may write in to Sex Survey with your views.

BEEN READING THE OTHER MAGAZINES LATELY?

If you haven't, you owe it to yourself to take a look—the happiest look of your life! The magazines below, all published by Guild Press, give you MORE - of EVERYTHING! More photos from more studios . . . more models . . . more complete, up-to-date ads and directories . . . more interesting and meaningful articles (Like Dr. Albert Ellis' provocative 'Sex Without Guilt' series in Trim, Jack Wills' stories on censorship and nudism in GGP, 'Sex Survey' in Fizeek) . . . and they're always FIRST with what's NEWEST!

TRIM—Young America's favorite physique publication—crammed with exciting pix—the accent on YOUTH!

MANUAL—The 'heavyweight' in the "pocket' class . . . every issue loaded with 'beefcake'—wrestling pix etc.!

MANORAMA—New, restyled to bring you the BOLD, DRAMATIC and UNUSUAL in art and photos . . . 'different'!

GRECIAN GUILD PICTORIAL—Long time favorite of physique fans everywhere, the 'G.G.P.' is choc-full of superior photos, potent art, pithy features. Learn how you can join the Grecian Guild yourself!

If you haven't seen any of the above lately—get with them NOW! Check below which titles you want . . . send 50¢ for each title you check . . . and latest issues will be sent to you by SEALED, First Class Mail, along with handy subscription blanks so you never need miss a copy again!

GALLERY

Here, at last, is the physique publication which the world has long awaited . . . a volume of rare beauty . . . unique in scope . . . continental in concept!

GALLERY, now available in a collector's limited edition, presents the male form in its natural grace and artistic beauty. Within its sixty-eight pages, eight in full-color, the connoisseur of physique art will find a rare treasure of previously-unpublished camera studies by Troy Saxon.

This unusual volume, a delightfully daring innovation in its field, may be ordered only from Troy Saxon. It will not be sold on newsstands nor in book stores. It cannot be reprinted: when the limited edition is exhausted, there can be no more.

A masterpiece in itself, GALLERY is designed to please the most discriminating adult physique devotee, artist or sculptor. It is a true collector's item you won't want to miss.

To avoid disappointment, order your copy today.

Now Available from Troy Saxon Studios

P.O. Box 95 Kansas City, Mo. 64141

Washington 4, D. C.

IMPORTANT NOTICE TO SUBSCRIBERS

Since the subscription agency which handles subscriptions to this magazine also handles subscriptions to many other magazines, please observe the following steps when notifying us of changes of address:

1. State the name of the magazine you receive.
2. Allow 1 month for the change to become effective.
3. Notify the Post Office of your new address; thus any copies sent out before your change becomes effective will be forwarded to you.
4. If your change is temporary, notify us how long it should run.
5. Quote the numbers on the lower right hand corner of your mailing label.

BOX 385, FRANKLIN STATION • WASHINGTON 4, D. C.

SPECIAL NOTICE

Many Guild Book Service readers have asked us to provide them with legitimate nudist magazines. To meet this need, the Editor of the GBS Bulletin has personally gone through the files of past issues of Gymnos, Helios and Sun and Health—three foreign nudist publications which have been passed by the U. S. Customs Bureau and U. S. Post Office on an issue by issue basis, and has made up five groups of magazines.

Each group consists of 12 issues, carefully selected to reflect contemporary aspects of the nudist movement which will be of particular interest to Guild Book Service Subscribers. All issues are new, have many pages in full color, no photographs are retouched, and each of the issues is outstanding in some respect.

Eeach set, consists of 12 complete magazines, is priced at only $10.00 —less than the newsstand price, and these are selected issues.

All five sets; A, B, C, D, and E; may be ordered for $45.00 if ordered at one time. Please specify set number and specify the set desired when ordering if you anticipate ordering again.

GUILD BOOK SERVICE

Box 7410—Franklin Station • Washington 4, D. C.

SEE MEXICO BY FIESTA TOURS!

FIESTA TOURS are offered monthly, beginning September 1963, for the unconventional traveller who desires a look at the real Mexico, off the beaten track.

Popular tourist attractions will be included, but the accent is on Bohemian Mexico. In smaller cities, tour accommodations may be quite primitive; therefore, tour enrollment is only for men, minimum age 18 years. Mexican tutor-guides will be available, allowing private lessons in conversational Spanish during the tour.

Each tour will be under the personal direction of Antonio Scott, author of the syndicated newspaper column, MEXICO CONFIDENTIAL. Each tour will average 10 days' stay and is limited to 20 persons. Cost will be $200 to $250 per person. depending on program. Price includes travel and hotels, most meals, theaters, bullfights, etc.

Tours starting October 11th, November 27th, December 22nd, January 15th. For more information write: FIESTA TOURS, 1803 EVERGREEN No. 2, AUSTIN 4, TEXAS.

MANHOOD ATTAINED

In this study of young men, by Herbert R. Stoltz, M.D., and Lois Stoltz, Ph. D., entitled Somatic Development of Adolescent Boys.

Statistics on dozens of young men include all physical developments — height, weight, shoulders, arms, legs, etc., during this period characterized by the maturation of the entire reproductive system and the onset of true manhood.

This rapid physical development is fully revealed by scores of photos taken at short intervals, capturing fully this unique transition from boyhood to manhood. Variations within age groups are also illustrated in a completely authentic, unretouched manner.

We have purchased the remaining copies of this 556 page book and offer them for only $7.50 each (originally published at $9.00) on a money-back guarantee! Send $1.00 with C.O.D. orders.
